From Zed Books : Decolonizing Methodologies: Research and Indigenous Peoples by Smith, Linda Tuhiwai 2nd (second) ,Revis edition [Paperback(2012)] before purchasing it in order to gage whether or not it would be worth my time, and all praised Decolonizing Methodologies: Research and Indigenous Peoples by Smith, Linda Tuhiwai 2nd (second) ,Revis edition [Paperback(2012)]:

2 of 2 people found the following review helpful. A must readBy CustomerThe important message contained in this book has not dated since it was first published. While oriented towards a Mori cultural context, the book is of relevance to those wanting to investigate the topic of indigenous methodologies in pretty well any cultural context. The information in the book is well organised, easily accessible and engaging. The authors writing style is easy to follow, purposeful, confronting and at times delightfully insightful. As an academic and researcher of many years it takes a well written book and thoughtful organisation of ideas to get me past a chapter. Yet I found it difficult to put this book down and after reading it cover to cover, I would read it again and use it as a research aid. Finally, the contents of this book should not be considered relevant to indigenous readers only. I would recommend this book to all citizens and especially those working in government administration, planning, research, education economic and or policy contexts.3 of 3 people found the following review helpful. A much needed reference for indigenous peoples

across the planet ...By sheila mccoysA much needed reference for indigenous peoples across the planet. Affirms are need to write our own histories without the need to get permission from those of colonizing mentalities. Well written,provocative, courageous and freeing!!!4 of 4 people found the following review helpful. Why white researchers must read this book.By Kara BeavisBrilliantly written by a Maori academic and educator who has been around social research for a long time. Congratulations on what was a thought-provoking, well set out, practical, useful and deeply considered book. Seriously amazing! No doubt a fantastic resource for Maori and Aboriginal researchers. Will be recommending to all non-Indigenous researchers as compulsory reading because this challenges every deeply held, colonial belief we have about ourselves and our research. Thank you Professor Tuhiwai Smith.
