**Pat Towell, Stephen Daggett, Amy Belasco : Defense Authorization and Appropriation** before purchasing it in order to gage whether or not it would be worth my time, and all praised Defense Authorization and Appropriation:

The annual consideration of appropriations bills (regular, continuing, and supplemental) by Congress is part of a

complex set of budget processes that also encompasses the consideration of budget resolutions, revenue and debt-limit legislation, other spending measures, and reconciliation bills. In addition, the operation of programs and the spending of appropriated funds are subject to constraints established in authorising statutes. Congressional action on the budget for a fiscal year usually begins following the submission of the President's budget at the beginning of each annual session of Congress. Congressional practices governing the consideration of appropriations and other budgetary measures are rooted in the Constitution, the standing rules of the House and Senate, and statutes, such as the Congressional Budget and Impoundment Control Act of 1974. This book is a guide to one of the regular appropriations bills that Congress considers each year. It is designed to supplement the information provided by the House and Senate Appropriations Subcommittees on Defence. For both defence authorisation and appropriations, this book summarises the status of the bills, their scope, major issues, funding levels, and related congressional activity.
