Gerhard von Glahn, James Larry Taulbee : Law Among Nations: An Introduction to Public International Law before purchasing it in order to gage whether or not it would be worth my time, and all praised Law Among Nations: An Introduction to Public International Law:

2 of 2 people found the following review helpful. Good Undergraduate Textbook for an introductory public international law course By David A. Gantz As an instructor using the book for the first time to teach an undergraduate course, I was generally pleased with the scope and content, although I supplemented many chapters with updates in key areas given that much of the 2012 edition was written four or more years ago. As with most basic textbooks covering a broad range of subject matter some parts provide a greater in-depth analysis than others. The use of one page case summaries is a good approach for students who have no legal training but results in some situations where the information provided is incomplete. Although I have a hard copy I also "rented" the Kindle edition so I could use it on my iPad, with the understanding that I could choose to "purchase" that edition for an additional payment later in the year. Unfortunately, Pearson discontinued the Kindle edition and in doing so deprived me of being able to preserve my

highlighting and comments. I plan to the extent possible to avoid purchasing or recommending Pearson textbooks in the future.0 of 0 people found the following review helpful. I bought this edition to save money but was worried ...By MCI bought this edition to save money but was worried it may be missing some information in the new textbooks and I have not noticed any major differences and I'm almost done with this class.0 of 0 people found the following review helpful. great bookBy DaveyGreat book, I recommend it. Had fun reading it

Offering a more accessible alternative to casebooks and historical commentaries, *Law Among Nations* explains issues of international law by tracing the field's development and stressing key principles and processes. This comprehensive text eliminates the need for multiple books by combining discussions of theory and state practice with excerpts from landmark cases. Renowned for its rigorous approach and clear explanations, *Law Among Nations* remains the gold standard for undergraduate introductions to international law. Learning Goals Trace the development of International Law through key principles and processes. Illustrate important issues and theories using excerpts from landmark cases.

Larry Taulbee has refreshed Gerhard von Glahn's *Law Among Nations* for modern international law courses. It is an insightful and instructive text that consistently serves me in helping students understand the fundamental concepts of international law. Robert Gorman, Texas State University
About the Author Gerhard von Glahn (late) was Professor of Political Science at the University of Minnesota, Duluth. James Larry Taulbee is Associate Professor of Political Science at Emory University.
