By Kelly This book helped me get an A for sure. It's keyed to the textbook my Professor used. Was great for finals when I had trouble recalling fact patterns of cases we had studied I could look up the condensed version in here instead of trying to skim the case for the relevant material.

Legalines on Antitrust, Keyed to Areeda gives a detailed analysis of the important cases in the antitrust casebook by Areeda. Each casebrief explains the facts, issues, holdings, and the court's rationale, as well as the concurrences,

dissents, and commentaries. Casebriefs also include background information and statements of law to demonstrate how these cases relate to the relevant law. Includes cases pertaining to: Horizontal restraints of trade Problems with patents Monopoly Vertical restraints Mergers and acquisitions Price discrimination Features of this publication include: Briefs are written by attorneys or professors and edited by a professional staff Extended table of contents at start of text provides overview of subject and last minute review Outline format provides relevant supplementary material Additional relevant cases are cited in te
