**Christopher White, Mark Lee : Legalines on Antitrust,Keyed to Pitofsky** before purchasing it in order to gage whether or not it would be worth my time, and all praised Legalines on Antitrust,Keyed to Pitofsky:

0 of 0 people found the following review helpful. Thorough!By Charlie FGreat for reinforcing issues and cases, more thorough than the Casenote Legal Briefs, just make sure it lines up to your text books or you might be lost.0 of 1 people found the following review helpful. Not as Helpful as ExpectedBy Casey W. JonesGood: It does follow the Pitofsky casebook perfectly. The fact summaries are helpful for understanding the cases.Bad: Most of the cases summarized lack depth in analysis. It does not prepare me for class discussion. I was also expecting more black letter law analysis.

Discusses the major cases from Handler's Antitrust casebook. Each casebrief includes an explanation of the facts of the case, issues, holdings, and judge's rationale. This title includes cases about to the objectives of antitrust law, the

institutional framework of policy, market structure and a first look at the problem of monopoly power, competitor collaboration in price fixing and division of markets, group refusals to deal and joint ventures, market concentration and conspiracy, vertical distribution restrictions, additional limitations on a single firm exercising market power, mergers, some limits on the reach of antitrust, and price discrimination.
