OK, but not a great book...By Clara

MI've been to NZ once; returning there in couple of months because I like it SO much. Bought this book as am toying with permanently relocating to NZ; but so far, have to say this book has not met my high expectations of being helpful. A lot of data but not presented in a fashion to be chronologically useful in one's formulating a plan of attack on HOW to get there (given all the bureaucracy one must endure and prevail thru, to emigrate to NZ). Maybe by time I finish the book I'll change my mind? but problem is, I'm finding myself less and less motivated to continue reading it...
