**Baris Soyer : Marine Insurance Fraud (Maritime and Transport Law Library)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Marine Insurance Fraud (Maritime and Transport Law Library):

This book provides a comprehensive and coherent legal analysis of the impact of fraud on the position of various parties to a marine insurance contract, as well as the cover provided by standard marine policies. The issues under discussion in this invaluable guide are also equally relevant in the context of non-marine insurance contracts. Helpfully divided into two parts; the first part deals with the impact of fraud committed by parties to an insurance

contract i.e. the assured, brokers and insurers. The second part analyses the extent to which standard marine policies cover the fraudulent and dishonest activity of third parties to an insurance contract. This book will be of huge practical assistance to practitioners specialising in marine insurance as well as insurance generally, and to professionals, academics and post-graduate students.
