From Brand: Informa Law from Routledge : Marine Insurance: The Law in Transition (Maritime and Transport Law Library) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Marine Insurance: The Law in Transition (Maritime and Transport Law Library):

The book examines and analyses in depth the specific issues which are currently occupying the marine insurance markets and the law. The London market is currently re-examining its practices and international competitiveness; and

the English case law is growing significantly. The issues identified in the book are the fundamental issues on which marine insurance law is based, and which are in the process of being re-examined and developed further to respond to the needs of modern insurance practice. They are of wider interest to insurance law in general and the evolution of English law is analysed against the backdrop of legal developments in Europe and Scandinavia.

About the Author Professor D. Rhidian Thomas is Emeritus Professor of Maritime Law at Swansea University, and the Founding Director of the Institute of International Shipping and Trade Law.
