School Book (Kindle version)By Prime ObsessedI bought the Kindle version of this book which was \$20 more than what my school was selling it used; however, there was no guarantee my school had any used books and the cost of the book brand new was over \$200. The peace of mind that I am able to access the book via my Kindle, smartphone, and PC instead of having to actually carry the book around everywhere I

go was so worth the chance of missing out on a used book at school.

This comprehensive resource explores the effective handling of basic and complicated residential and commercial landlord-tenant questions. In addition to detailing the potent "substantive rights" created by the State's Consumer Protection Act (Chapter 93A), it analyzes the differences between various rent control statutes of municipalities such as Boston, Cambridge, and Brookline and offers settlement strategies for both landlords and tenants. Plentiful citations to authority help you support your case. Volume 11 of the Massachusetts Legal Practice Library
