United Nations : Migration and Climate Change (Iom Migration Research Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Migration and Climate Change (Iom Migration Research Series):

This report focuses on the possible future scenarios for climate change, natural disasters and migration and development, looking to increase awareness and find answers to the challenges that lie ahead. It states that even though it is defined as growing crisis, the consequences of climate change for human population are unclear and unpredictable. The study points out that scientific basis for climate change is increasingly well established, and

confirms that current predictions as to the carrying capacity in large parts of the world will be compromised by climate change.
