From IDASA (Institute for Democracy in South Africa) : On Borders before purchasing it in order to gage whether or not it would be worth my time, and all praised On Borders:

Based on national surveys by SAMP in South Africa, Lesotho, Mozambique, Zimbabwe, and Namibia, this book represents the most comprehensive research on cross-border migration ever undertaken in the region. From gender relations to xenophobia and nationalism, the book provides invaluable insights into people's experiences with, and attitudes towards, cross-border migration and challenges many of the widely-held stereotypes about migrants.

Richly detailed, carefully judged, and fascinating. . . The care and accuracy with which this work was conducted, against formidable physical, logistical, and methodological obstacles, is admirable. Journal of International Migration and Integration...an important book...a strong foundation from which to continue furthering our understanding...- Ethnic and Racial Studies, Sheila Croucher
