**Wendy Leigh : Prince Charming: The John F. Kennedy, Jr. Story** before purchasing it in order to gage whether or not it would be worth my time, and all praised Prince Charming: The John F. Kennedy, Jr. Story:

5 of 5 people found the following review helpful. like so many othersBy lori garrisonI, like so many others, grew up with John Jr. and felt kind of like I knew him. When his plane was lost, I was in shock for several days - then the grieving started! I liked this book because it covers all of his life, which so many people remember and cherish. I was very happy that Carolyn's presence was kept to a minimum. She made him very unhappy and may have been responsible for them leaving the airport 2 hours late, causing the accident!!1 of 1 people found the following review helpful. Three StarsBy Patrick FitzsimonsA nice quick read.1 of 1 people found the following review helpful. Five

Completely revised and updated. He was born the most famous baby in the world, son of the President-elect of the United States. Millions saw him as a little boy who said goodbye to his father with a final salute -- a heartbreaking image that became part of history. Now, three decades later, another generation of Camelot comes to a tragic end. This fascinating unauthorized biography reveals as no other the inner dynamics of the marriage between John and Jacqueline Kennedy; John, Jr.'s search for a father figure in his uncles Robert and Ted Kennedy and his stepfather Aristotle Onassis. It reveals young John's dreams of becoming an actor, his career in law, and his founding of *George* magazine. And it intimately details his role of loving son to his late mother, devoted husband to Carolyn Bessette, and as America's Prince Charming to the rest of the world. With a dazzling array of updated photos, *Prince Charming* delves below the glossy surface to tell the inspiring, flesh-and-blood true story of a young man born to live a life that was destined to be called a legend.
