**Douglas Kahn, Terrence Perris : Principles of Corporate Taxation (Concise Hornbook Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Principles of Corporate Taxation (Concise Hornbook Series):

0 of 0 people found the following review helpful. Five StarsBy Boyuan WangGreat book.

The book is not organized according to the chronological life of a corporation. Instead, the book begins by examining

the tax treatment of a withdrawal of property from an existing corporation. The reason for choosing that organization is that the concepts embodied in such topics as dividends, earnings and profits, and stock redemptions are the fundamental building blocks on which the more complex provisions of corporate taxation rest. The authors explain the technical operation of the various Code provisions and provide numerous examples illustrating how they are applied and how several provisions must be read in concert with each other.
